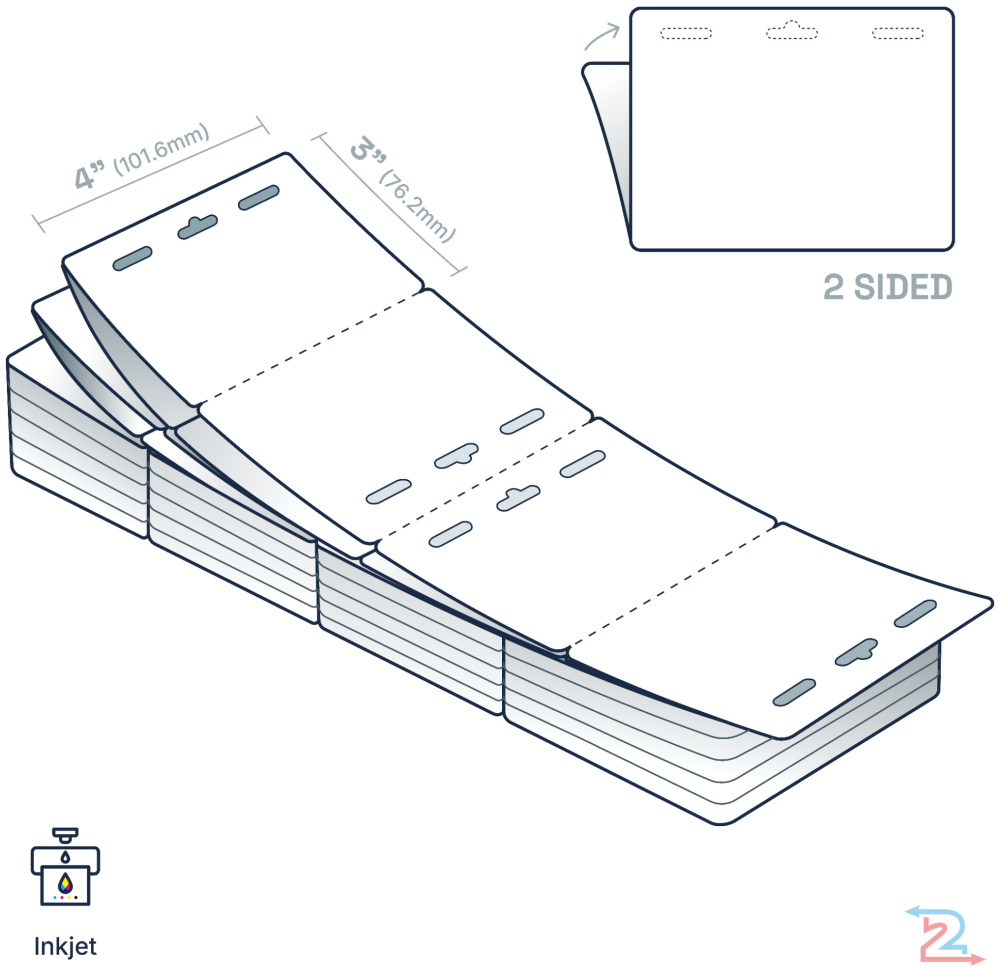
250 Double-Sided, Tear Resistant Name Badges for Epson Inkjet Printer 4" x 3" with 3 Slots



Product Details

Weight: 2.10 lbs

Tear-resistant name badges for Epson Inkjet Printers are made of a synthetic material. These badges support full-color edge-to-edge printing and are durable enough to use without badge holders. Lanyard slots are pre-punched but not removed, allowing use with single or double attachment lanyards. Designed exclusively for double-sided badge printing, each badge includes perforation lines every 3 inches (127mm) and a timing mark on the back of every second badge. A double-sided badge is created by folding the printed badge together.

Item Height	3" / (76.2mm)
